

THE GLENDALE NEWS

DEVOTED TO THE BEST INTERESTS OF THE SAN FERNANDO VALLEY

VOL. VI.

GLENDALE, LOS ANGELES COUNTY, CAL., FRIDAY, JUNE 17, 1910.

No. 8

Tropico and Glendale are practically one community joining Los Angeles City on the north, the former five and the latter six miles in a direct line from the Court House in Los Angeles. Glendale is an incorporated city of the sixth class with a population of 2700. Pacific Electric cars leave Sixth street depot half hourly. Broadway every half hour, connecting at Eagle Rock with car for Glendale. Rapidly increasing in population and importance. Schools, churches, fraternal societies, business establishments and all the accessories of an up-to-date suburban community.

WORST FIRE IN OUR HISTORY

Valley Lumber Company Suffers Heavy Loss

About a quarter past four o'clock last Thursday afternoon, people near Fourth and Brand boulevard noticed a slight smoke issuing from the office of the Valley Lumber yard on Fourth street and almost immediately after a volume of smoke followed in a few seconds by flames burst out from the building. The office consisted of two rooms and the proprietor, Mr. Boyd, was in the front apartment at work when the flames burst in upon him. So sudden and unexpected was the outbreak that he had not time to do anything but rush to the shed at the rear of the office and attempt to attach a garden hose to the hydrant at that point, thinking to turn the water on the flames there, but the attempt was ineffectual and when he hurried back to the office it was filled with flames and smoke so that it was impossible for him to save any of the books or papers or even to close the door of the safe. No time was lost in sending in a fire alarm from the lively stable opposite and the fire department responded promptly. On the way to the fire the hose cart pulled by an express wagon had the usual experience, it tumbled over, spilling out the men riding on it, among them Harry D. Crutcher, who was somewhat bruised but not incapacitated, for he did good service. Scarcely five minutes elapsed from the time the alarm went in until the hose cart and engine arrived at the scene, but already the whole yard seemed to be a mass of flames and the heat from the dry lumber was almost unendurable a block away. It was one of the fiercest and quickest fires that any one among the hundreds present had ever seen and at no time after the fire department arrived was it possible to do anything except to protect nearby property. The Central stables opposite were only saved by reason of the protection of the iron roof and it was thought for a time that it would be impossible to save the residence of Mr. Gansert on 4th St., but through the good work done by Mr. C. O. Rich, who mounted the roof of the building, and for an hour or more kept a small stream playing on it, and others, the house was saved. Nothing could have saved this residence, however, if the wind had not fortunately veered to the south instead of continuing to blow from the southwest from whence it came at the beginning of the fire. Had the fire occurred a year ago, the high school building which then occupied the grounds to the west, would have undoubtedly been destroyed. The telephone and electric light poles in front of the yard caught fire several times, one or two of them being half consumed. A tool box belonging to the Domestic Gas company, standing on the corner of Fourth and Mary when the fire broke out, could not be removed in time to save it and was burned with its contents.

The dry lumber which stood in tiers all over the yard made ideal material and conditions for a successful fire and had the fire department been many times better equipped than it

is, the result would have been the same; as it was the boys worked valiantly and did everything possible to save property. The origin of the fire is a mystery but it is supposed to have originated in the shed back of the office where a lot of tarred paper was stored, as the dense blackness of the torrent of smoke that first appeared had all the characteristics of a fire fed by tar or some equally inflammable material. The yard was well stocked with lumber and other building material and the loss falls heavily upon the owners, Mr. C. H. Boyd, the manager at Glendale, and Mr. P. H. Bortells of Los Angeles, each having an equal interest. The insurance is said to have been about \$2300. The total loss will probably foot up \$10,000. The ground is being cleared off as rapidly as possible and as announced elsewhere in this issue business will be resumed as quickly as possible.

Harry Lynch, manager of the electric lighting plant, rushed into the lumber shed at the time of the fire and rescued a meter, but has a badly burned hand in consequence.

C. O. Rich and E. K. Grant both received painful burns during service at the fire.

SOME APRICOTS.

Mr. D. A. Talbot is busy taking care of the crop of apricots in several orchards in Glendale and vicinity, among them being those of C. D. Thom on Glendale avenue, Mrs. Griswold, 6th and Verdugo Road and the forty-acre orchard of Dr. Scholl in Sycamore canyon, the crop of his own orchard in the canyon having been sold to other parties. Altogether he expects to handle about one hundred tons during the season, which began a fortnight ago with the early variety. The bulk of the crop at present is going to the Stetson cannery in East Los Angeles, which pays \$21 a ton for the fruit. Mr. Talbot is employing at present about twenty pickers. Next week he will commence drying, which will necessitate doubling his force. In this vicinity the crop is rather light this year, not being much above half the usual output, but the quality is exceptionally good and prices are satisfactory to the grower.

A CARD.

I wish to express through the medium of the NEWS my heartfelt appreciation of the many expressions of good will and esteem that I have received on my retirement from the office of city treasurer and tax collector, and to thank every one for the uniform courtesy I have received while in office and speak for my successor the same consideration.

T. W. DOYLE

A CORRECTION.

The social item in last week's NEWS referring to a surprise to Miss Anna Addison, should have read in part, "Members of Mrs. Danford's class of the Methodist Sunday school."

ANOTHER CORRECTION.

We understand that the young lady whose arrival at the home of Mr. and Mrs. G. E. Williams was announced as having occurred on April 24th, is justly indignant that she should be made to appear of such mature age, when as a matter of fact she chose May 24th as her birthday. The NEWS makes an abject apology.

CITY TRUSTEES

A Lengthy Session--Several Matters of Interest Taken Up

The board convened with Messrs. Anderson, Lane and White present. Among other routine business, the usual effort of City Treasurer T. W. Doyle to free himself of official position, occupied the usual few minutes and left him in the usual position holding down the status quo pending the approval of the bond of the late appointed treasurer, Messrs. Watson and Coker came in at 8 o'clock. The usual order of business was departed from in order to hear Mr. John A. Pirtle in regard to a proposition for the City of Glendale to supply the Verdugo Canyon tract with electricity to be delivered by the city to Mr. Pirtle and associates within the city limits.

The matter was referred to the manager of the electric light plant, with instructions to report at the next meeting and have an ordinance prepared if considered advisable. A letter was read from Street Supt. Sinclair referring to his work during term of office, making favorable comparisons with similar work in other cities, also informing the board that he had been offered the position of superintendent some street work in Tropico which would take a portion of his time, and suggesting that as there was very little street work being done in Glendale at present, that he be permitted to take on this special work in addition to his usual duties, such reduction in his salary to be made as the trustees deemed proper. The matter was referred. A report was received from the manager of the electric light department. In addition to his report, Mr. Lynch recommended that as there is money on hand to do so, the first maturing electric lighting bond of \$1000 be paid off. This matter was referred to the finance committee. A request from M. Z. Remsburg for permission to sell fireworks, was denied. G. B. Mock requested an extension of 60 days' time for the completion of the improvement of Sixth street. Mr. Coker opposed granting the extension, although he was willing to grant 30 days. The board granted the extension by a vote of four to one. The city engineer reported that he had held a meeting with property owners interested in the improvement of Fourth street between Verdugo Road and Adams street, and that they favored improvement of that street on the grade recommended by the city engineer. The city clerk was granted leave of absence for two weeks. Manager Lynch of the electric light department reported that in the matter of the pole nuisance on Fourth street between Glendale avenue and Brand boulevard, there are about 25 superfluous poles which he thought could be got rid of if the various companies using them would agree to combine for that object. He was instructed to arrange with the companies to install one set of poles to be occupied jointly by the city, the railroad, power and the telephone companies. The city clerk was instructed to purchase a new set of codes for the use of the city officials. There was considerable discussion about the subject of fire protection. Criticism of the fire department as made by certain citizens in regard to their action at last week's fire, was adverted to and the general opinion was to the effect that the members of the department did excellent work considering the equipment at their service. A motion was finally passed commending the fire chief and citizens who assisted in fighting the fire at the lumber yard for their heroic exertions on that occasion. The question of fireworks on July 4th was discussed at length and the city attorney was instructed to prepare amendments to existing ordinance, so as to prohibit the use of fireworks in the city.

A motion passed instructing the city attorney to prepare an amendment to the existing ordinance, to prohibit the establishing of a lumber yard in fire district number one.

In regard to street superintendent it was decided that he be permitted to do private work for the next three or four months and put in demands for services rendered to the city in that time.

O. C. Logan has taken out a permit for a \$2200 house at 320 Orange street.

It will pay you to trade at Valley Supply Co., 308 Brand Boulevard because full weight is guaranteed and quality is assured.

SPORTING NEWS

The Inter-City League was formally opened last Saturday with a game between Glendale City and Leavitt-Bartholomew team of Los Angeles. Glendale won 9 to 2, and with five other teams leads in the race for the cup with 1000 per cent there being twelve teams in the biggest league yet organized in baseball.

Benson pitched his usual brilliant game, striking out 13 batters and allowing only 7 scattered hits, being backed up in fine style by the home boys.

The Leavitts made four errors to our three, and Reiger was touched up for ten hits, fanning seven of our boys.

Manager Valentine tried out a new third baseman in Ross, a new arrival in Glendale who has located at West Fifth street, and was delighted to know that Glendale had a live ball team, having played on the Peacan Plating team of Los Angeles and Montebello crack team. He made good, fielding his position fairly well and securing two hits out of four times to bat.

Tomorrow (Saturday) Glendale will tackle the tough Bishop team of Los Angeles, and will have to slam the ball hard to win, for they are sluggers, too, and play a fast game. Following is the line-up:

Glendale City		Bishop	
O. Leonard	catcher	Buttrick	
Gonzales	pitcher	Benson	
Pursley	first base	Davenport	
Babcock	second base	Emery	
C. Leonard	third base	Rice	
J. Butler	shortstop	Bourne	
B. Butler	left field	Stine	
Arzuella	centerfield	Hilliard	
Dumphy	right field	Barkdall	
H. Smith	substitute	Morris	
T. Leonard			
Umpires:	Dumphy and Kels		

Every one that can come is earnestly invited to attend, and Manager Valentine announces that hereafter ladies will be admitted free to all seats on the ball grounds and will hold the game until 3 p. m., so as to let the fans return from town in time to witness the game. Let's have every one of the 500 seats filled tomorrow.

All ball scores of games will be printed in Monday's Record, Herald and the NEWS.

For the races to be run at the big celebration on the Fourth of July at the Glendale baseball grounds. See Manager Valentine Saturday at the ball game.

ICE grain, hay, coal, wood, poultry supplies, stock food, horse and cow remedies. Full weight and No. 1 goods. Valley Supply Co., 308 Brand Boulevard. Phones, Sunset 1811, Home 192.

COYOTE-WILDCAT ROBE. APRICOTS.

Mr. Sanford of Sycamore Canyon is exhibiting with proper pride a fine robe which he has had made of coyote and wild cat skins, all the product of his ranch, although ostensibly he is only raising chickens and fruit. The robe consists of four coyote and two wild cat skins, which does not by any means represent the full crop of those critters which Mr. Sanford has gathered in. He is now marketing apricots, having picked the first of the season about three weeks ago, early fruit of the Newcastle variety. From one tree he has picked about 80 boxes so far.

Mr. Edgar Leavitt left the Sanitarium Saturday last and now under the unrelenting care of Mrs. Leavitt is convalescing in his own home at "Whispering Pines."

AT LAST

Suit Against Southern California Gas Circuit Co.--Charged With Fraud

Mr. Frank Campbell has brought suit against the directors of the Southern California Gas Circuit Company for the return of \$6500, which he claims that concern induced him to invest through false representations. As the allegations made by Mr. Campbell in his complaint all appear to be based upon facts notoriously known to a portion of the people of this community, it would seem to be only a question of law whether he wins his suit. And the law of California on its surface appears to be very clear in regard to misrepresentations made for the purpose of disposing of stock in fake concerns such as the Southern California Gas Circuit Company is, or was. It will be remembered that in 1906 the company made its appearance in Glendale when Mr. Adolph Gensien was granted a franchise by the city trustees to lay gas pipes in the streets. At that time Glendale was represented on the board of directors by Mr. R. A. Blackburn, other members of the board being Gensien, J. W. Hellman, H. Cohn and Samuel Mock, the latter secretary. At that time it seems the stock was divided approximately one-half to the directors, the remainder being put in the treasury for sale. Mr. Blackburn's connection with the concern was of short duration and he was in no way responsible for the subsequent campaign for the purpose of unloading stock. The avowed object of the concern was to lay gas pipes in Glendale and Tropico, and promises were made that it was only a question of a few months before the plant would be in active operation. Relying largely upon the fact that such business men of Los Angeles as Hellman and Cohn were the backers and directors of the company, a number of people in Glendale and Tropico subscribed for the stock, paying for it at the par value of \$100 per share. Probably as much as \$12,000 was secured in this community, the only thing that the subscribers up to date have to show for it being some beautifully engraved certificates bearing the valuable autographs of B. Baruch, president and Samuel T. Mock, secretary.

In addition to these works of art there is buried somewhere in the streets of Glendale about 6500 feet of pipe. After burying the pipe out of a portion of the money secured hereabouts, the company under the management of Mr. Mock began to branch out into other fields, contrary to original promise and supposed intention. Hollywood looked good to Mr. Mock and he worked that city, then he went for the beach towns, carrying on a campaign of advertising in the newspapers of those places, which was mightily impressive, at the same time inexpensive, for it was paid for in stock. Some of the advertising appeared in Los Angeles papers, the principal features as set forth in alluring terms being the immense profits in gas and the pointing with pride (?) to "what had been done in Glendale"--not as to "what had been done in Glendale," mark you. One of these advertisements from a Redondo paper as late as May 17, 1909, is on our desk now. It starts out by declaring the "gas companies pay dividends of 10 per cent to 60 per cent per annum," goes on to say that "The principal mains are already laid in Glendale" and winds up by advising everybody to "Get in on the ground floor." Spread over half a page one can imagine its impressiveness--whether the coast people bit to any extent or not we have not heard. It is supposed that other stockholders besides Mr. Campbell are interested in the suit, indirectly at least, as they will doubtless file suits on their own account should this one be successful. It is understood that the directors plead ignorance of the actions of their secretary, Mr. Mock, and would attempt in consequence to evade responsibility, but it is hardly likely that this childlike act will avail to relieve them. Mr. Frederick Baker is attorney for Mr. Campbell.

GLENDALE, CAL., JUNE 17, 1910

Monrovia is without a hotel, La Vista Grande having closed its doors on account of the local ordinance which prevented it from serving liquors to patrons with their meals.

Dr. J. H. Kellogg of the Battle Creek Sanitarium says that everybody in the world will have become insane by the year 2175, if the increase in cases of insanity continues at its present rate. This is discouraging, for he does not even give hope of escape through strict confinement to his patent health foods.

THE LIBRARIAN OF THE FUTURE.

Since Charles F. Lummis, that streak of genius in corduroy, resigned, affairs in the Los Angeles library have not been thrust violently upon the attention of the world at large. Evidently the patrons of the institution have been able to get their wants supplied just about as well as when there was a three-hundred-dollar-a-month expert at the head of the institution. But this condition of affairs has lasted too long. The library board has, not for a moment since the vacancy occurred, ceased to hunt vigilantly for somebody to draw that monthly salary, and at last they caught him somewhere in the wilds of Missouri. Mr. Purd B. Wright is his name. He announces that things are going to be done "on a broad basis." Special work is to be done on "such problems as irrigation, the oil industry and its development, oil as a power producer, water power and its development, etc." Mr. Wright, with the singular forename, has planned to earn his money and in that laudable ambition he should be assisted by every properly organized citizen. After that special work is well under way, the suburbanite will not be under the necessity of consulting the almanac to find out when the sign is right for planting potatoes or whether the double-eyed ones or the blind variety are best adapted to this climate. He need no longer wrestle with such abstruse problems as "Can watermelons be profitably grown in close proximity to a theological seminary?" He will only need to call up Mr. Wright on the telephone and be at once instructed as to what is the proper thing to be done under the circumstances. Or if it is a question of irrigation, as to how it should be done in a dry town and what is the correct liquid to apply to a chronic thirst, the answer will be received just as quickly as the card index system can be run down. It can readily be seen just from this brief mention how invaluable the public library of the future is going to be. There will be no subject worth the consideration of mere man which the librarian cannot answer, unless perhaps it is whether the last popular novel has yet been received, or how long a seven-day book should be kept out—these will be details beneath the consideration of the librarian of the future, busy with the weightier matters of the universe!

THE VICTORIES OF PEACE.

The death of Robert Koch, the noted bacteriologist, the discoverer of the bacillus of tuberculosis and the cholera germ, removes from the world one of its greatest benefactors. His was a noted example of a life devoted to scientific research for the benefit of humanity. For two years in African jungles he worked with his microscope to discover the cause of the sleeping sickness. In no field of human effort has more heroism been displayed than in that of science as applied to questions concerning the physical welfare of the race. No risk to their own lives has been great enough at any time to deter a certain class of workers in the realm of medicine from experiment and research. Whether in the jungles of the Dark Continent, investigating the sleeping sickness, in the cholera infested swamps of the Orient or in the yellow fever atmosphere of Cuba, it has not mattered to the dauntless doctors,

where their duty called, it found them ready.

A dozen years ago three young doctors in the hospitals of Cuba determined to test for themselves the theory that the microbe of the terrible yellow fever is disseminated by a certain variety of mosquito. They allowed themselves to be bitten by insects that were known to have access to victims of the plague; they underwent all the tortures not only of the disease but of its dread expectancy. One of them died of the disease, another lingered a year or two and then passed away, and only a few months ago the third, who had lingered for years half way between life and death, also died, the last of this heroic trio.

Their experiment completely established the truth of the theory which they held and the result has been the saving of unnumbered lives, but every one of them deliberately and with full knowledge gave up his life for his fellows, for in every case their deaths were directly the result of their voluntary service to humanity. Presumably monuments have or will be erected to the sacred memory of Major Walter Reid and assistant surgeons Lazear and Carroll, and as a reminder to the youth of the nation there may appropriately be engraved upon them, "Peace hath her victories no less renowned than war."

The Union Hollywood Water Company, claiming that the rates fixed by the Los Angeles city council are confiscatory, has issued orders to discontinue all extensions and improvements to the system, has discharged thirty of its employees and countermanded orders for \$25,000 worth of pipe. This is a serious setback to a rapidly developing section of Hollywood.

By a decision of Judge Hervey in the Los Angeles Superior Court, the case of Anderson-Lore & Co. against the Merchants' Plumber Association of Los Angeles, alleging conspiracy in restraint of trade, will have to go to trial. This combination is one of the worst trusts in existence. It comprises practically all the big firms in Los Angeles dealing in plumbers' supplies, practically monopolizes the sale of plumbers' goods and yet refuses to sell to such firms and individuals as it sees fit. Some interesting testimony will doubtless be presented in the case, but it is difficult to imagine any defense that can be made by the association.

It strikes us as matter for amusement that our illustrious ex-president, who does not hesitate to give advice in regard to any subject suggested by the heavens above or the earth beneath, takes it upon himself to say that our American newspapers should be very careful about giving expression to any opinions about matters outside our own country. In the classic language of the day, he is the champion "butter in" of the age, but there is no reason why he should be permitted to monopolize that high privilege.

What the city council of Los Angeles will finally do in reference to the regulation of telephone rates, no man can foretell, but the result as the matter stands is that San Pedro has had the monthly rate for business telephones increased from \$2.75 to \$3. This is the result of the majority of the members of the council insisting upon carrying out their own ideas in regard to rates in preference to adopting the recommendations of the Public Utilities Commission, made after that body had investigated the subject with supposed thoroughness. Yet public opinion in its well meaning, superficial way, will probably uphold the council.

ALMOST A SERMON.

It is not long since a brilliant young lawyer belonging to a prominent and aristocratic family in Los Angeles, committed suicide after holding up and robbing a man in Chicago, and but a few weeks ago his brother was caught in the act of breaking into a safe. Last Friday night a young man named Wiley, gifted by nature and good fortune with all the weapons which are supposed to be required in fighting the battle of life, was caught in the act of burglary and in the attempt to escape showed his willingness to commit murder. These instances comprise a most tempting text for a sermon and will no doubt be used to point a moral and bolster up more than one theory in sociology, politics and religion. There will be those who see in these examples the working out of the sins of a class, regardless of the fact that no class from the highest to the lowest but that furnishes its due proportion of those who disregard laws both human and divine. Others will use the living text to prove that the individual is blameless, because of a scapegoat in the shape of a "system," although in proof of their theory they can point to no shining example of a systemless world. There will be those in abundance who will say that these young

men lost their chances of making life a glorious success because of the influence of bad company, "evil companions" who led them astray! And "whiskey," that broad-shouldered devil upon whom is laid a large proportion of the sins of humanity, must, in the opinion of many, be held answerable for their actions. But the cause is deeper than all of these. Somewhere in the building of character there was a flaw; the child was not well equipped for the battle, although supplied with sword and shield, with gun of the latest pattern and ammunition in abundance. He attained stature and made in appearance a soldier of impressive aspect and bright promise, but the flaw was in the very fibre of his being; the whole world might be shaped for his handling, but circumstance and equipment are as nothing when the great test comes, for the strength of the chain is its weakest link.

Doctors of the three-fold nature of man, parents, teachers, preachers all, get busy!

PURE AIR AND WHISKEY.

The head physician of an establishment for the cure of drunkards says that we shall be surprised to find how much good oxygen and ozone have to do with the cure of inebriates, and how much bad air has to do with depressing and debauching them. "Whiskey has not done the whole of this mischief; for you will find that these victims are generally devitalized, and it is that which drives them to drink." He adds that a careful estimate has proven to him that at least eight-tenths of the victims of intoxicating drinks will shut their windows at night and sleep in closely vitiated air. Waking, of course these people are depressed, and feel first of all the need of a stimulus. Whiskey is the whip that sets them going; and throughout the day they are placed in a condition, by their morning nip, to drink frequently. These people—not all of them of the lower classes, nor all of them of the poorer classes—are really afraid of night air, believing it to be dangerous to breathe it.

This physician endorses the position so commonly taken nowadays, that if we are going to get rid of drunkenness we must follow exactly the same path as in getting rid of tuberculosis, and that all other debasing conditions of the human organism depend for their existence upon environment that is removable. He insists that we have got to begin at the schools, and teach the children common sense about what they must breathe as well as what they must eat and drink. There is no real distinction between feeding the blood with vitiated food and feeding it with vitiated air. Eating and drinking and breathing may be equally at fault, and the reform must go on conjointly.—Christian Register.

THE PRIZE-FIGHT DISGRACE AND GOVERNOR GILLET.

After stating some weeks ago that he would do nothing to stop the Jeffries-Johnston fight in San Francisco on July 4th, and giving in effect as his reasons the inadequacy of the law, Governor Gillett now orders that the fight be prevented from coming off, and says that prize fighting has been unlawful in California ever since 1850! More than that he gives expression to some very virtuous and proper opinions as to the brutality of the business, the disgrace it brings upon California and the damage it does to "the youth of our state." "Prize fighting in California will stop if the present laws are enforced," he asserts, and more to the same effect.

If the governor was not familiar with the law a few weeks ago when he expressed himself as first quoted above, he ought to have been so, and we certainly doubt his having received any great legal light since that time. He had an opportunity then to express himself just as he has done at this late hour, and take his position at the head of the great number of decent people in the state and elsewhere who believe that prize fighting is a disgrace to twentieth century civilization, and he failed to do so. Even now in his position as chief executive and administrator of the laws of the state, he throws responsibility upon the Supreme Court, although admitting that under the existing law the act is a "felony." If ever a public official committed political hari-kari, J. N. Gillett is the man, for the ruling element in San Francisco will be against him and the better class of citizens can give him no credit for his eleven-hour conversion. There is a pretty well founded suspicion that Governor Gillett's action has been forced by a threat from personages able to make it good that should the fight come off as scheduled, congress will refuse to appropriate money for the San Francisco Panama Exposition.

Meantime the ravings of Mayor McCarthy, as telegraphed from Chicago are amusing. It will be hard on state officials who are plastered over with union labels, to be compelled to act against their San Francisco constituents.

OUR STREETS—SOME INTERESTING FACTS.

From a letter submitted to the city trustees Monday evening by Street Supt. Sinclair we glean some facts of interest in regard to street work in Glendale during the four years since incorporation.

During that time 20 miles of streets have been improved by the petrolium process, their roadbeds being 36 feet wide, the average cost being about \$300 a mile, or a total expense to the property holders aligning the streets of \$63,000. This cost amounts to about 1 1/2 cents per square foot, a most remarkable showing when the cost of improving streets in other municipalities is considered. In Hollywood, Riverside, Redlands and other towns the cost runs from 11 to 16 cents a square foot. This is not, however, for the same quality of improvement and the contrast is no reflection upon those places; they are able to pay for a different grade of work, such as it is hoped will not be required upon Glendale streets. The petrolium process was something of an experiment when Glendale took it up, and largely through the improvements made in it by Mr. Sinclair it has worked out to be a great success. The specifications in effect here now are very different from those used in making the first streets in Glendale; changes being made in the quantity of oil, as well as in the method of application, every change being in the nature of an improvement. One result of this has been that the streets of Glendale for several months past have been used by the proprietors of the process as an object lesson with which to demonstrate its possibilities and from time to time engineers from various cities of the United States and even from other countries have visited this place to examine our street work and so enable themselves to report upon it to their home people interested in similar improvements.

There was some doubt at first whether the work done would stand the wear and tear of time and the condition of the streets today seems to give satisfactory testimony in this respect. For streets, however, where the travel is expected to be unusually heavy or where there will be more than the average of heavy hauling, it is thought that a surface dressing of crushed rock is advisable and for the improvements now under way on the lower end of Glendale avenue and also on Sixth street (a part of the general highway system) the specifications are changed accordingly with a corresponding increase in expense. Sixth street will cost 3 1/2 cents and Glendale avenue 4 1/2 cents a square foot.

Repairs.

There has been an expenditure of less than \$3,000 for repairs in the four years of the city's existence. The total expense of the street department up to the first of June, exclusive of salaries is \$6027. Two years ago South Pasadena with 26 miles of improved streets spent \$20,000 in repairs. Hollywood last year spent more than \$2000 for oil inspection alone. In the case of South Pasadena it is probable that considerable expense was incurred because of storm water, an item which has been very inconsiderable here, amounting to about \$50 last year.

REAL ESTATE AND BUILDING.

Mr. Wallace, Second and Central, is erecting a \$3500 house; H. B. Smith, contractor.

E. K. Daniels, Park avenue near Brand, is putting up a \$2000 house.

Mr. O. W. Odell, the indefatigable, is starting his 27th house in Glendale. It is a close race between him and the Peerless Building Company for honors, but the company is one or two ahead at present. They have recently bought for \$6500 eight lots in the Bowen and Norman tract, West Glendale, and will continue building operations.

Ed. M. Lee recently sold five lots on Cedar street south of Fourth, to Mr. F. H. Martin who will probably build one or more houses thereon. At present Mr. Martin is putting up a small cottage on Cedar street near First.

A permit has been issued to the Valley Lumber Company to erect a \$2000 brick office building on the corner of Mary and Fourth streets.

Fred Freitag is putting up a \$1000 residence on Fourth street next the school house.

The Overton Realty Co. report the sale of the L. E. Brockman 80 acres near San Fernando to F. W. Schneider and an Eagle Rock corporation for \$17,000.

One 40 has 30 acres in walnuts and peaches. The other is vacant but fenced and cross fenced. This is considered one of the best pieces of land in the San Fernando valley. Mr. Brockman paid \$75 an acre for this land three years ago. The purchasers will make as much if they hold it as long and will probably do better than that.

Home Course In Domestic Science

X.—The Modern Kitchen

By EDITH G. CHARLTON,
In Charge of Domestic Economy, Iowa
State College.

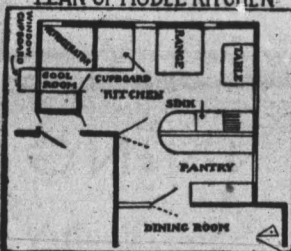

Copyright, 1910, by American Press
Association.

CONSIDERING the importance of the kitchen to the rest of the home, it seems strange that it should very often be the least attractive room from every point of view in the house. We find it tucked off in some dark corner with little or no ventilation, its wall and floor covering dark and dingy and its equipment so meager it would be impossible to find any pleasure in working with them.

The kitchen is the workroom of the home. Its arrangement, pleasant or otherwise, very often gives the keynote of conditions in the home. My idea of a real kitchen is this: It should be as bright and cheery as any room in the house. I would much prefer a gloomy parlor than a dark, unpleasant kitchen. If possible I should have a north and east exposure. This would insure sunlight in the morning and a cool breeze on hot summer afternoons. Then I should be careful to have a good view from the kitchen window, something beautiful to look out upon, like a stately tree, a bit of green lawn or a trim vegetable garden. The outlook from kitchens in towns and cities is too often brick walls of adjoining buildings, untidy back yards or high board fences. From kitchens in the country we often look out upon an unsightly woodpile or barnyard filled with a clutter of old farm implements. With such daily views it is no wonder if the women, who must spend three-fourths of their time in the kitchen, have very little love for housework.

There should be at least two windows and, if possible, an outside door opposite one window in order to have good ventilation at all times. The kitchen should not be unnecessarily large, but its size will depend on the number of persons in the family and the amount of work that is to be done.

PLAN OF MODEL KITCHEN

In it. Too much space between the different pieces of furniture necessitates too many unnecessary steps. A suitable moderate sized kitchen is about 12 by 14 feet.

The kitchen should be convenient to the dining room, either opening directly into it or, still better, having the pantry between the rooms. In the latter case there should be a cupboard with sliding doors opening into both kitchen and pantry, for convenience in setting the table and removing dishes to the kitchen. The cut gives a plan of a convenient kitchen, showing position of windows and doors, also the larger pieces of furniture.

In this plan note the position of the refrigerator, which can be reached from the outside so that ice may be put into it without coming into the kitchen. There is also a window in the cool room to which a window cupboard can be attached. This room with its cupboard will take the place of the refrigerator in winter and may be used as a baking room in hot weather.

The sink, with draining board, is located on the side next the pantry. Sliding doors are arranged at the back so that dishes washed in the sink may be placed on the pantry shelves without going into the pantry itself. Another convenient feature in the arrangement of this kitchen is the position of windows between range and work table, giving good light and ventilation. If possible avoid having a door leading upstairs opening in the kitchen, because in such cases it is almost impossible to keep the odors of cooking from penetrating to the upstairs rooms.

Wall and Floor Covering.

The kitchen to be sanitary in every particular should be finished in some way that will permit of frequent washing. The best wall covering is the simplest and most easily cared for material that can be purchased. There is nothing better for this purpose than sanitas, a material similar to oilcloth. The first cost is a little more than paint or tinning, but when carefully applied it is more lasting. Sanitas is put on with paste in horizontal strips around the room. The edge of each piece must be pasted down securely, and care should be taken to avoid wrinkles. If a tablespoonful of molasses is added to each quart of paste it will stick more firmly.

The painted wall is suitable for kitchen and pantry provided a flat dish is given and a color used in preference to white. A glossy surface, particularly a white one, is hard on the eyes and becomes very monotonous. Wall paper is not a desirable covering for a kitchen wall because it absorbs moisture and odors and cannot be cleaned satisfactorily.

For the floor the best covering is in-laid linoleum. This to my mind is better than the polished floor, which is always slippery and is hard on the feet. Then there is the painted floor, which has both advantages and disadvantages, chief among the latter being not very durable qualities. The kitchen floor should not be covered with carpet, because that is unsanitary, neither should it be devoid of any covering and so require scrubbing. This is one of the items of work which should be eliminated from the housekeeper's schedule. The white sanded floors, tables, etc., are attractive to the eye and a joy to a certain type of housekeeper, but they represent too much energy and labor to be included in modern methods. Floors should be covered with some material easily cleaned, and tables, sinks, shelves, etc., should be painted or covered with zinc, tile or oilcloth. The zinc table and the tile sink are a lasting pleasure and lessen work to such an extent that they soon more than pay for the initial cost.

Kitchen Furniture.

This should be simple, durable and adequate for the needs of the housekeeper. The kind and number of pieces will largely depend on the character of the home. But in every kitchen there should be a good range, at least one work table and a convenient sink supplied with running water and modern plumbing. These three articles should be near neighbors because they are so frequently used at the same time.

Whatever the fuel—coal, wood, gas or gasoline—it should be burned in a good range, one that is perfect in all its parts and equipped with a good baking oven. No part of the housefurnishing is more important than the kitchen stove and no piece of farm machinery, however necessary, should be bought by sacrificing the new stove. Since the preparation of food for the table is an absolute necessity in every home, the stove, whatever its style, should be as good as any part of the equipment of the entire establishment.

The work table should be high enough that the worker need not stand in an uncomfortable position while ironing or baking. Kitchen tables are made thirty inches high, which is not enough for a woman five feet six inches in height, and to bend over it, as she always must, results in an unnecessary weariness or backache. Either the low table should be set upon supports or a higher one should be ordered. The high stool is a simple piece of furniture which should be in every kitchen. It can be slipped under the work table when not in use and is a convenient seat while preparing vegetables, ironing and doing the numberless other tasks which can be performed sitting just as well as standing.

A clock is necessary in the kitchen, also a pair of strong scissors, a pin-cushion with pins and some coarse needles and thread, both white and black. These are constantly needed, and it makes unnecessary steps to be obliged to go to the living room for them. It is hardly possible to have too many drawers, shelves and cupboards, and yet these ought not to be used to encourage disorderliness. There is sometimes a temptation to hide away things in cupboards or drawers that would better be destroyed at once than have them add to the task of straightening up later on.

The modern kitchen may have other useful pieces of furniture in addition to the above, if there is money enough to provide them. Among these may be mentioned a water or electric motor or even a small one horsepower gasoline engine, any one of which will run the washing machine mangle, churn, cream separator and can be attached to the sewing machine. This little contrivance is not so expensive that it need be excluded from even moderate homes, considering the amount of work it will accomplish and the strength it will save. When a woman is obliged to do all her housework it ought certainly to be counted as one of the necessities. The kitchen cabinet with separate compartments for all kinds of groceries and supplies is sometimes preferred to the pantry. It is entirely a matter of personal preference which should be chosen, for both are most convenient. Reasonable care must, however, be taken not to leave groceries lying about loosely in the cabinet, for these will attract insects as well as mice. But the housekeeper endowed with even the most ordinary degree of order may easily avoid such a misfortune.

The electric or gasoline iron is a handy little appliance for making kitchen work lighter and is inexpensive when usefulness and labor saving qualities are balanced with dollars and cents. In the country, of course, the gasoline iron is generally the only one possible, but these have now been brought to a degree of perfection that makes them satisfactory.

The Use of the Kitchen.

One last important point to remember in furnishing a kitchen is that its real purpose is a workroom, not a living or dining room. A workroom should have its tools conveniently arranged within easy reach of the workman. All utensils and evidences of kitchen work should not be kept in other parts of the house or stowed away in obscure places in order that the room may be presentable when strangers come. The modern kitchen is not intended to fill the place of a reception room, and only in exceptional cases should it be used as a dining room.

THIRD ARTICLE.

IF every farmer who has a hard milking cow would use husking gloves when draining the animal he would find it a sure cure for the holdup habit. Some cows are tight by nature and have a deep aversion to loosening up. When a tight fisted heifer feels the warm clasp of a pair of spike studded mitts, however, she will be ready to give to the heather, if necessary.

The self opening farm gate is a delusion and a snare. We used to have one, and it was a bigger four flush than an elder who led a double life and a camp meeting at one and the same time. This gate was guaranteed to open at the sound of its master's voice in the teeth of a head wind and was warranted halter broke and sound of wind and limb. As a matter of fact, that gate always had to be opened with a set of jack screws and a season of prayer.

It was the biggest nuisance on the place and caused all the hired help on the farm to fall from grace. We finally gave it to a Methodist neighbor who wanted to test his piety. A farm paper raises the interesting query, "Can a farmer raise mules and retain his church membership?" It depends on what church he belongs to. It is easy if he is an Episcopalian, but if he is a hard shell Baptist it is a little doubtful. We had a Methodist neighbor who tickled the curriculum of a mule in a moment of playfulness and had both of his eyeteeth riveted to his collar button in reward, and when he came to the next day he rose to his feet, repeated the third chapter of Nebuchadnezzar backward, then swore a streak which blistered the lining out of a new steel range. The man who can rear a family of mules from help-

OPENING A GATE WITH PRAYER.

queen bee carries a noisy and penetrating sting in her hip pocket, so considerable care must be exercised in fondling her.

Horace Greeley used to say that you can never get milk from a cow which is dissatisfied with her lot or inclined to nurse a grudge. The same is true today. The man who tears around the barn like a demented weasel, planting a kick here and there and talking loudly through the basement of his Adam's apple won't stand jack high on creamery pay day. A kiss on the cold, moist nose of a heifer is a better dividend producer than wharf rat profanity. A cow a kiss on the cold, whose slats are moist nose of a heifer, to be replated any minute by an irate milker will back her milk away up out of reach of the cheese factory. After you have caressed a milk cow across the breadbasket with a No. 11 boot you might as well try to extract milk from a farrow mule.

When chickens perspire too freely and take cold it will usually be found that their pinfeathers need resetting.

This is a simple and easy process and will save many a pullet from pneumonia. Chase the bird around the back yard until the perspiration oozes from her pores, then lay her on her back and chink the pores with portland cement, which will hold the pinfeathers in place.

If your gasoline engine backs, it will do no good to hammer it over the foretop with an ax. First see if the crossbar which connects the cusplid with the spark plug has not been short circuited, then examine the bowels of the water jacket with a dark lantern in search of microbes. If this does no good, run your gasoline through an Oystermerre mattress and hang out to dry.

A good many of the fashionable hotels of the country are introducing pumpkin seed tea as a vermifuge. The plan is a good one. The pumpkin has been the butt of ridicule in song and story ever since it dislodged the Hubbard squash as a choice entree, but we are here to say that a nine inch slab of pumpkin pie, washed down with cider vinegar and dill pickles, will make a section man's stomach sit up and take notice. The man who clasps a cold pumpkin pie to his bosom on an empty stomach and survives the ordeal will never need a massage for his digestive apparatus.

We have a word to say to the farmer's wife. If your husband sticks up his nose at the meals lead him up to the feed cooker by the ear and tell him to drench his appetite with pig fodder. Some men will sit down in their own home before a nicely cooked meal and roar from soup to apple pie about the way things taste, but they will go to town and let a fifteen cent dinner soak into their esophagus without a murmur. We knew a man who kept this up for a number of years, and one day his wife reached over the spoon holder and jerked him into several kinds of dishabille before the whole family. When he got his jaw back into alignment and picked his false teeth out of the gravy he was a changed man, becoming so mellow in spirit that he offered to go four rounds with a soup bone. As a rule, we deplore violence in the home, but sometimes the only way to get along with a cross grained feeder is to beat him up with a mop handle.

A METHODIST NEIGHBOR WHO TICKLED THE CURRICULUM OF A MULE.

We are asked, "How can you best tell the age of a hen?" There is only one way and that is by the color of the tail feathers at the molting period. A yearling hen wears primrose tail feathers, a six-year-old favors the polka dot effect, and the fowl bowed down with age and grief wears here docked and done up in a hair net. The farmer who can't tell the exact age of a pullet by face to face inspection of her tail feathers ought to leave the farm and study law.

A nearby reader who has a fine cove of male and female bees asks us, "How can you catch the queen bee so as to clip her wings?" We generally use a scoop shovel with a pucker string, which should be slipped over the shoulders of the bee and tied in a bowknot, after which the wings can be clipped with a pair of tinners shears. The Glendale News

GLENDALF, CAL., JUNE 17, 1910

MEDICAL ENTOMOLOGIST HOPES FOR FLYLESS SUMMERTIME.

That summertime need not always be fly-time even beyond the pale of sewer districts is the hope-offering of Professor William B. Herms to the health promoters, bald-headed people and other individuals who have good cause to despise the fly.

Appropos of this subject Prof. Herms, whose anti-mosquito and anti-fly campaigns have made him a prominent figure on the coast, gives out the following statement: "The town that permanently abolishes all open toilets and other conditions of filth and moisture, such as decomposing refuse heaps, accretions in garbage barrels, etc., will become flyless. House flies cannot come into existence unless they have some such places in which to breed. They seldom travel more than one or two blocks from their place of hatching.

"Odors do not escape from properly operated dry-earth toilets, and flies cannot breed in them. The change of open-vault toilets to the dry-earth system is simple and inexpensive. First fill in the pestilential vault. Put in the place of it any metallic receptacle that is movable and water-tight. A large wash tub with a rope in the handle will answer the purpose. Spread a four-inch layer of dry earth over the bottom of the receptacle and keep the contents covered with fine dirt, sand, or ashes. Large establishments sometimes put a tank on wheels or sled runners, so that the hauling may be done by horses.

"The dry-earth refuse is valuable for fertilizing purposes and will in many instances well repay the labor incident to burying it near fruit trees or depositing it in deep furrows and ploughing it under. In districts where intensive farming prevails towns might arrange to have the contents of dry-earth toilets removed by night wagons, at little or no expense."

The California State Board of Health bulletin for the month of March deals with the dry-earth system of sewage disposal; in the May bulletin Professor Herms discusses methods of exterminating flies. These bulletins will be mailed free to citizens of California on request to the Secretary State Board of Health, Sacramento, Cal.

THE OIL INDUSTRY.

One of the factors which have contributed to the marvelous and continued prosperity of the oil industry is the fact that demand for the product of California wells has consistently kept pace with or exceeded the supply. Indeed it is a fact that at the present time that the known demand for crude oil for 1910 will exceed the carefully-estimated production by 5000 barrels per day. Thus has a normal and regular price been maintained in the face of an increased output unexpected by the most optimistic. The State Mineralogical Bureau's official figures show the production for four years to have been:

1906	32,624,000 barrels
1907	40,311,000 barrels
1908	48,366,000 barrels
1909	53,500,000 barrels

It is exceptional in California to find any large fuel-consumer using coal when oil is obtainable and so great has been the widening of its field of usefulness that the above ideal condition has been made possible.

The Hill railroad lines in the Northwest have just contracted for 5000 barrels daily for one year for use in locomotives already converted to oil burners, which amount will of course increase annually, while the Western Pacific, the latest transcontinental road to reach this coast, has arranged for an initial supply of 3000 barrels per day, deliveries having already begun.

NOTICE INVITING STREET WORK PROPOSALS

Pursuant to Statute and to Resolution No. 343 of the Board of Trustees of the City of Glendale, California, adopted the 23d day of May, 1910, directing this notice, the undersigned invites and will receive at his office, in the City Hall, 708 West Fourth Street, up to 7:30 p.m. of Monday, the 20th day of June, 1910, sealed proposals or bids for the following street work to be done according to the specifications and plans adopted for the said work, on file, to-wit:

First: That all that portion of Franklin Court from the South line of Fourth Street to the North line of Fifth Street, including all intersections of streets (excepting such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon), be graded, oiled and tamped in accordance with the plan and profile on file in the office of the City Engineer, and specifications for the construction of graded, tamped and oiled streets on file in the office of the City Clerk of the City of Glendale, said specifications being numbered 9, excepting that from the South line of Fourth Street to the Easterly prolongation across said Franklin Court of the South line of Lot 8, Block 20, of the Town of Glendale as per map recorded in Book 21, pages 89-90 of Miscellaneous Records of Los Angeles County, California, in addition to the regular treatment under specifications Number 9, there shall be incorporated into the roadway a layer of gravel 2 1/2 inches thick, of which the maximum pieces will pass through a 2 1/2-inch

THE GOOD THINGS OF LIFE

come oftener to those who choose wisely. For instance, those who select their groceries here have the best there is on their table. For your own satisfaction, suppose you give us a trial order. ring and the minimum pieces will not pass through a 1/2-inch ring, in the following manner: When the roadway is tamped to within 2 1/2 inches of the surface, the 2 1/2 inches of gravel of the surface, as above specified shall then be evenly spread over the entire surface and tamped into said roadway, and then completed as provided for in Specifications Number 9.

Second: That a cement curb be constructed along the Westerly side of the roadway of said Franklin Court from the South line of Fourth Street to the North line of Fifth Street, including returns at all street intersections (excepting along such portions of the line of said roadway upon which a cement curb has already been constructed to the official line and grade) in accordance with the specifications for the construction of cement curbs on file in the office of the City Clerk of the City of Glendale, said specifications being numbered 2, except that on the West side of said roadway from the South line of the Fourth Street to the Easterly prolongation across said Franklin Court of the South line of Lot 12 of aforesaid Town of Glendale, the curb shall be placed six feet from the property line instead of the distance as specified in said specifications number 2.

SECTION 2. That the Board of Trustees of the City of Glendale finds upon estimates directed to be furnished and furnished by the City Engineer that the total cost of said improvement will be greater than fifty cents per front foot along each line of said street, including the cost of intersections, and it is hereby determined, in pursuance of an Act of the Legislature of the State of California, approved February 27, 1893, as amended by an Act of the Legislature amending said last named Act, which amending Act became a law March 2, 1899, that bonds shall be issued to represent the cost of said improvement. Said bonds shall be of ten years from their date, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date, until the whole are paid, and said bonds shall bear interest at the rate of seven per cent. per annum on all sums unpaid, payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, until the whole of said principal and interest are paid.

Bidders must file with each proposal or bid, a check payable to the order of the President of the Board of Trustees of the City of Glendale, certified by a responsible bank, for an amount which shall not be less than ten per cent. of the aggregate of the proposal, or a bond for the said amount and so payable, signed by the bidder and two sureties, who shall justify before any officer competent to administer oaths, for double the said amount, and over and above all statutory exemptions. In bidding use blanks which will be furnished by the City Clerk upon application.

Glendale, Cal., 8th day of June, 1910.

G. B. WOODBERRY,

City Clerk and Ex-officio Clerk of the Board of Trustees of the City of Glendale, California.

NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION.

Sheriff's Sale—No. 68876.

R. P. Haskins, plaintiff, vs. Princess Gold Mining & Milling Co., a corporation, defendant.

By virtue of an execution issued out of the Superior Court of the County of Los Angeles, State of California, wherein R. P. Haskins, plaintiff, and Princess Gold Mining & Milling Co., a corporation, defendant, upon a judgment rendered the 20th day of July, A. D. 1909, for the sum of one thousand, sixteen and 45/100 (\$1016.45) dollars lawful money of the United States, besides costs and interest, I have levied upon all the right, title, claim, and interest of said defendant, Princess Gold Mining & Milling Co., a corporation of, in and to the following described real estate, situate in the County of Los Angeles, State of California, and bounded and described as follows:

Locations and witness description same as Gold Horseshoe.

PUBLIC NOTICE IS HEREBY GIVEN, That I will, on Monday, the 27th day of June, A. D. 1910, at 12:00 o'clock M. of that day, in front of the Court House door of the County of Los Angeles, Broadway entrance, sell at public auction, for lawful money of the United States, all the right, title, claim and interest of said defendant, Princess Gold Mining & Milling Co., a corporation of, in and to the above described property, or so much thereof as may be necessary to raise sufficient to satisfy said Judgment, with interest and costs, etc., to the highest and best bidder.

Dated this 2nd day of June, 1910.
W. A. HAMMEL,
Sheriff of Los Angeles County.
By E. W. BISCAIUZ,
Deputy Sheriff.
WM. J. HANLON,
Plaintiff's Attorney.

NOTICE OF SPECIAL STOCKHOLDERS' MEETING.

Glendale & Eagle Rock Railway Co. Notice is hereby given that, in pursuance of a resolution and order of the Board of Directors of the Glendale and Eagle Rock Railway Company, a corporation, organized and existing under the laws of the State of California, unanimously adopted at a special meeting of said Board duly and regularly held on the 11th day of May, 1910, at the office of said corporation in the said City of Glendale, State of California, a special meeting of the stockholders of said corporation is hereby called for, and will be held at the office of said corporation at 223 Cedar street, said City of Glendale, County of Los Angeles, State of California (said place of meeting being at the office and pri-

Richardson Tract AT LAST!

After forty years of private ownership, you have the first opportunity of acquiring a portion of the beautiful

SANTA EULALIA RANCH

in Tropic. It is ten minutes nearer Los Angeles than Glendale. The first subdivision, consisting of 25 acres, lying between the San Fernando Road, Southern Pacific and North of the Pacific Electric, will go upon the market in large building lots 50 to 75 feet in width and 100 to 200 feet in depth, for

\$525 Upward

Each lot on a street 60 to 70 feet wide

You know the cut between the Elysian and Griffith Park hills, through which the sea breezes blow, making this property the coolest in the valley. You have seen the gardens growing year after year. You know its worth, its scenic beauty and value as a place to live.

TODAY YOU CAN BUY A LOT 50x150 ON A STREET 60 FEET WIDE, GRADED AND OILED WITH CEMENT CURBS AND SIDEWALKS, GAS, ELECTRICITY, MOUNTAIN WATER, SCHOOLS, CHURCHES, STORES, RAPID TRANSIT, 7c FARE, AND WITH FROM TWO TO SIX LARGE TREES ON IT, AND RESTRICTED, FOR \$600.00. TERMS: \$60.00 CASH AND \$12.00 PER MONTH. THINK OF IT!!

This is your first and last chance to buy at these prices, for they will hold but a short time. The San Fernando Valley is an inland empire; the Richardson Tract is the gateway to it. The ultimate worth of these lands is beyond calculation. Think of these prices and terms as compared to five years from now. Imagine the immense appreciation in value. If you don't own a home now, and would like to, we will build for you, subject to restrictions, on any lot you choose, and you can pay for it like rent.

incipal place of business of said corporation, and the room and place where the Board of Directors usually meets) on Thursday, the 14th day of July, 1910, at 10 o'clock a. m. in the forenoon of that day for the purpose of considering and acting upon the proposition to increase the capital stock of said corporation from \$25,000, divided into 250 shares of the par value of \$100 each, to \$250,000, divided into 2500 shares of the par value of \$100 each, and such other matters in connection therewith as may be expedient.

By order of the Board of Directors.
Dated May 11th, 1910.
E. D. GOODE,
President Glendale & Eagle Rock Railway Company.

R. E. GOODE,
Secretary Glendale & Eagle Rock Railway Company.

NOTICE OF PUBLIC WORK

Public notice is hereby given, that at its meeting held on the 16th day of May, 1910, the Board of Trustees of the City of Glendale adopted a Resolution designated as Resolution of Intention No. 342, declaring its intention to order the following improvement to be made, to-wit:

Section 1. That the public interest and convenience require and it is the intention of the Board of Trustees of the City of Glendale to close up, vacate and abandon for street purposes all that portion of

PARKER DRIVE

described as follows, to-wit: The Westerly thirty (30) feet of Parker Drive as per map recorded in Book 9 Page 18 of Maps, Records of Los Angeles County, California, and extending from the Southerly line of Sixth Street to the Northerly line of Rock Glen Avenue.

Section 2. That the exterior boundary of the district of land to be affected by said work of improvement and to be assessed to pay the damage, costs and expenses thereof are hereby specified and declared as follows, to-wit:

Commencing at the Northwest corner of Lot Sixteen (16) of the Eagle Rock Villa Tract as per map recorded in Book 9 Page 18 of Maps, Records of Los Angeles County, California; thence Southerly along the Westerly lines of Lots Sixteen (16), Seventeen (17), Eighteen (18), Nineteen (19) and Twenty (20) of said tract to the Northerly line of Rock Glen Avenue; thence Easterly along said Northerly line of said Rock Glen Avenue Eight Hundred Fifty-eight (858) feet more or less to the Southeast corner of Lot Twenty-one (21) of aforesaid tract; thence Northerly along the Easterly line of Lots Twenty-one (21), Twenty-two (22), Twenty-three (23), Twenty-four (24) and Nine (9) of said tract to the Southerly line of Sixth Street; thence Westerly along said Southerly line of Sixth Street Eight Hundred Fifty-eight (858) feet more or less to the point of beginning.

Reference is hereby made to said Resolution for further particulars.

LINEN SHOWER.

Miss Lillian Ward entertained a company of her friends and those of Miss Frances Hendershott at her home last Saturday afternoon. The affair was in the nature of a linen shower for the guest of honor, Miss Hendershott, who is soon to become the bride of Mr. Frank Walton of Crescent City, Cal. The house was beautifully decorated with primroses and orange blossoms. The "shower" was artistically arranged in the semblance of a cobweb, which the soon-to-be bride had to follow out in its convolutions of dainty linen. Every guest was provided with a special flower, those in use being carnations, pink and white roses, pansies, lilacs, myrtle, orange blossom, hand-painted by Miss Mary Blackburn on a sheet of paper on which was written a wish for the honored guest, the sheets bound together into a most attractive booklet to be kept as a souvenir of a delightful affair. Guests present, Miss Hendershott, Misses Carr, Blackburn, Magowan of Glendale, Miss Myrtle Small and the Misses Lewis of Los Angeles.

SUMMER SCHOOL.

At Tropic, beginning June 20 at 9 o'clock, Mrs. Larkey assisted by two experienced teachers, will conduct classes for pupils desiring to obtain special help in deficient subjects or make an advanced grade. High school pupils will be given individual instruction. Should the number desiring instruction in bookkeeping, commercial arithmetic and business orthography be sufficient, classes will be formed. For terms apply to Mrs. George E. Larkey, Box 59, Casa Verdugo.

Something About People You Know

Mr. F. J. Muehlman is absent in the East, to be gone several weeks.

Margaret Valentine of Corona is visiting her grandmother, Mrs. M. Z. Valentine.

Mr. W. E. Cooley of Pasadena visited his daughter, Mrs. F. L. Church and family, Sunday last.

Mr. John Hunter of Congress, Ariz., a cousin of Mrs. J. P. Lukens, visited with Mr. and Mrs. Lukens Friday last.

Mrs. Fuller and Miss Bertha Fuller with Mr. and Mrs. Wm. Goss of Glendale are occupying a cottage at Ocean Park for a month.

Mr. and Mrs. R. A. Campbell will leave early next week for the Northwest territory, where Mr. Campbell expects to take up some government land.

Miss Anita Wells left Glendale Monday morning on the Santa Fe for her contemplated European trip, in company with a party from Pasadena and Los Angeles.

The Presbyterian Ladies' Aid society will give an ice cream social at Guild hall on the evening of Friday, June 17. Ice cream and cake, 15 cents; cornucopias, 5 cents.

Fred Evans left for the East last Saturday evening. He will visit his old home in New York before his return, joining Mrs. Evans who preceded him some weeks ago.

Mr. Fitzgarrrell, who has bought a lot on Orange street between Second and Third, and is about to begin the erection of a residence there, called at the news office this week.

Mr. Reed, formerly in the Brand Boulevard shoe shop, visited Glendale Wednesday. Since leaving here he has visited the East and now goes to occupy a newly acquired 160-acre in Antelope valley.

Mr. Monroe Walton gave a party last Monday evening at his home on Central avenue at which were entertained his college classmates and other friends. He also entertained a similar company at dinner Wednesday evening.

Mr. J. M. Freeman of the Boulevard Clear Store, is "pointing with pride" to his new show case which displays his goods to excellent advantage and is one of the best things of the kind that the manufacturers turn out.

The Salt Lake road brought in a car load of wire cable the other day for the Sunset Telephone Co. It was rolled on sixteen coils and weighed 60,000 pounds. The freight amounted to about \$800 from Chicago.

An interesting social-evening was spent at Thorneycroft Farm yesterday and an entertainment given for the pleasure of the guests which deserves more than passing notice and will be spoken of more fully in our next issue.

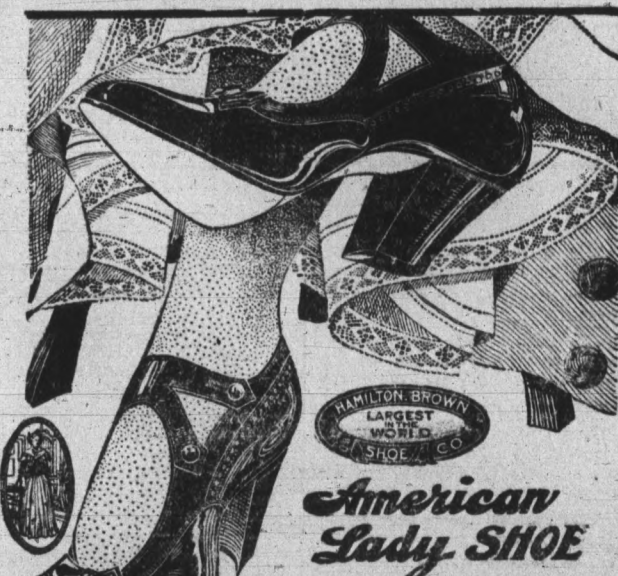

Mr. G. Lin, proprietor of the restaurant corner of Fourth and Glendale avenue, went to the California hospital a week ago to undergo a surgical operation. He is still in the hospital slowly recovering from the effects, hoping to be out soon.

City Clerk G. B. Woodberry and Dr. R. E. Chase leave this evening for a fortnight's vacation in the high mountains. They go by train to Porterville and thence to Nelson's camp in the Sierras. Mrs. Woodberry will act as deputy city clerk in her husband's absence.

An interesting event in social circles will be the wedding at St. Mark's church this evening, the principally interested parties being Mr. Reginald Whitaker and Miss Frances Eyre, two young people deservedly popular in Glendale society. An account of the event will appear in the next issue of the News.

Mrs. Enoch Pepper, Miss Elizabeth N. Pepper and Mrs. Lawrence C. Speth, of Cleveland, O., mother and sisters of Mrs. L. H. Hurt, are guests of Dr. and Mrs. Hurtt. Mrs. Pepper and Miss Pepper have enjoyed an extended trip of ten months traveling through Canada and sojourning in New York City, Cleveland, O., Washington City and New Orleans.

Eighty new street lamps are daily expected by Manager Lynch of the lighting department, which will be installed promptly upon arrival. These will complete the work laid out for the present, although additions will be made from time to time and the service which is already satisfactory will be made even more so in the near future.

AMERICAN
LADY SHOE

The woman who follows the styles closely is as easy to please with the American Lady Shoe as the woman who thinks less of style and more of comfort. One gets style plus comfort—the other comfort plus style.

They both get a quality that is not obtainable in any other shoe at the price.

We have a large line of American Lady Shoes in the newest and best styles of Oxfords for Spring and Summer wear. Come in and let us show you what real shoe satisfaction is.

Price, \$3, \$3.25, \$3.50

We also have a fine line of Men's Oxfords that have style and fit. We are very strong in children's and infants' shoes. Our

BLACK CAT

line of Hosiery for Ladies and Children are giving the best of satisfaction. We have the best line of Men's furnishings ever offered in Glendale.

We have some Security Watches yet to give away with \$10.00 worth of trade. We guarantee fit and satisfaction or your money back.

Why go away and take chances when you are absolutely safe to trade at home. Respectfully

BUNGALOW PHOTOGRAPH STUDIO

EDWARD H. WESTON

To patrons and friends I wish to announce the opening about July 1st of my new studio, now being erected on Brand Boulevard just north of Tropic Avenue.

Artistic Portraits Commercial Dept.
Children a Specialty
Phones, Sunset 111; Res. Sunset 257

NEW STUDIO OPENED.

Edward H. Weston, who for the past year has been head photographer at the Mojonnier Studio in Los Angeles, has opened a studio at Tropic on Brand boulevard, between Tropic avenue and Cypress street. Mr. Weston is fitting his establishment up in the most approved fashion and promises to give the people of this valley the finest service possible.

Mr. Weston is a graduate of a foremost eastern college of photography and has won gold medals and other prizes in numerous photographic contests.

In connection with his portrait studio Mr. Weston will conduct a commercial department. Mr. Weston's specialty is the photography of children.

FLAG DAY EXERCISES.

Flag Day was most appropriately celebrated by members of the N. P. Banks Post and Corps, who presented a program of patriotic music, readings and addresses at G. A. R. hall. Many handsome flags were placed throughout the hall and a large flag which had floated all day long from the flag-staff on the hall was allowed to hang until late at night, its folds rising and falling in the soft gentle evening breezes in the full summer moon. A large and appreciative audience thrilled with patriotism as each number was rendered. The program opened with "The Star Spangled Banner," Mrs. Charles Peckham; song, Gladys Peckham; reading poem (composed by the late L. L. Dennick), Rev. J. W. Utter, pastor of the Central Christian church; reading, Mrs. Frank Morgan; song, Misses Grace and Elizabeth Utter; address, Capt. J. H. Fredericks, district attorney; song, "Salute to the Flag," Misses Marjorie Imber, Hilda Engelhardt, Lillie Schick, Frances Peckham and Eloise Seaman; address, Capt. J. A. Wells; address, Rev. H. C. Shoemaker, pastor of First Presbyterian church; "Salute to the Flag" ladies of N. P. Banks Corps.

CLOSING EXERCISES.

Thursday marked the closing exercises of the Tropic grammar school, which were held under a large canvas, on the tennis court, at 10 o'clock in the morning. The program was rendered on a large platform surrounded by comfortable seats which were occupied by the large concourse of patrons and citizens that has ever gathered on the school grounds at any previous closing of the school.

A splendid program of music and readings was rendered as follows: Mother Goose Jingles, first grade pupils, Miss Helen Ingham, instructor; flower songs, Miss Freda Borthick's pupils; vocal duet, Paul Morgan and Dudley Collins. Sister drill, twelve girls of Miss Hunter's room. Piano duet, Wanda Scofield and Helene Morgan. Song, pupils of Miss Hunter's room, followed by songs by boys of this grade. Doll's playhouse, Sadie Snell and Dorothy Hobbs. Songs, pupils of Miss Hibben's room. Song, Geoffrey Collins. Songs, pupils of Miss Cornwall's room. Song, Laura Bartlett. Music by Glee club of the school. Presentation of diplomas by Supt. Mark Keppel, following a brief address made by Mr. Keppel.

Diplomas were presented thirteen pupils who had satisfactorily completed the eighth grade: Misses Hazel Allen, Grace Nicholson, Virginia Boring, Tryphenia Jennings, and Gladys Brunson; Masters Murray Breeden, Shirley Melrose, Jesse Wilkes, Leroy Gilmore, Walter Fisher, Francis Griswold, George Flanders and Bert Richardson. The graduates presented Mrs. Martha McClure, the principal, a handsome token of their loyalty, love and best wishes.

At the close of the exercises the pupils led by their teachers assembled

in the grove on the school grounds and partook of a bountiful basket luncheon.

Mrs. Alfred Engelhardt was assisted by Misses David H. Imber, S. C. Lepelman, Frank Morgan, Will J. Blain, Susie Miller, Fred A. Collins, Wyle Kohl, J. R. Spence, Clyde R. Carmack, Joseph H. Webster, John Seaman, Hal H. Davenport, A. O. Conrad, Frank Ballentine, T. R. Berteaux, W. A. Hough, Morris Schlick, S. L. Boring, Mary Searls, Samuel A. Pollock and Walter Hibbert.

These ladies served a most appetizing picnic dinner to three hundred children and fully as many adults. The remainder of the afternoon was spent by a visit to the assembly room of the school, where a fine art exhibit was on display as furnished by the pupils of each grade. Fruitade was served by Misses Hazel Allen, Tryphenia Jennings and Grace Nicholson.

WEST GLENDALE

Mr. Ball, who was injured some weeks ago in Los Angeles, is reported on the road to recovery, although still confined to the hospital.

Mrs. Miner of Ivy street expects to leave shortly on a trip to her old home in Muskegon, Mich. She expects to visit her son who was recently married in Chicago, while away.

On Friday, June 10th, Mr. and Mrs. E. Foy of West Seventh street, were made happy over the arrival of a fine baby girl. Mother and baby doing fine.

On Sunday morning, June 12th, at 2:50 a. m., the stork called at the home of Mr. and Mrs. J. O. Elliott, 1508 Ivy street, and left them a fine 7½-pound boy. The little fellow is doing fine, and can use his vocal chords as well as a big boy.

Mr. and Mrs. Mulvey of Ivy and Pacific streets were presented with the "only boy in the valley" on Monday morning, June 13th. Mother and baby doing nicely. The little fellow expects to join his papa in the plumbing business before long.

The pupils of the Fifth and Sixth grades of the West Glendale school, together with their teacher, Miss Yarnell and a few friends, had a jolly picnic at Bee Rock, on Wednesday. A hayrack was used to convey the merry-makers to their destination and a splendid time was had. It is needless to say that everybody did more than justice to the sumptuous lunch that was served by the young ladies of the party.

NOTICE!

To the people of Glendale I wish to state that the studio I have opened on Brand boulevard, in K. of P. building, under the name of Rowland Studio, has no connection whatever with the Rowland Studio, formerly of Los Angeles.

I recently bought fixtures and apparatus of Mr. Rowland of Los Angeles and moved same here, but am in no way connected with the Studio there now.

I also wish to say that all photos made at my Studio are subject to your approval and are guaranteed to be first class in every respect, and at lower prices than you have to pay in the city.

I have moved here to Glendale and am one of your home industries. I solicit your patronage.

I am prepared to do all classes of photographic work. Babies and children's portraits my specialty. Or if you want a photo of that new house or auto—show me the job. I'll do the rest and guarantee to please you.

Yours truly,
L. C. MARANVILLE.
Prop. Rowland Studio, 304½ Brand Blvd.

Insure and list your property with the Tropic Real Estate Co. Corner Park Ave. and Brand Blvd., also Loma Ave. and Brand Blvd. We get results.

PERSONAL ITEMS

Charles Shropshire has left for the North to join the navy. He was treated to a surprise party by the Freshman class of the high school last Friday evening at his home, Fifth and Everett streets. There were about twenty present, the visitors furnishing their own refreshments and program for the evening which was greatly enjoyed by the young people.

Dr. H. E. Reed will return to Glendale to resume his practice about June 20th, according to information received at this office.

Dr. Reed practiced osteopathy in this place four years, and his return is due to the earnest solicitation of his many friends and patients. Mrs. Reed will accompany him and as soon as suitable quarters can be secured they will make their home here permanently.

Mr. M. P. Harrison and family were pleasantly surprised Friday evening last by a party of their old friends and neighbors who dropped in to see them in their new home. The visitors brought their own refreshments and an atmosphere of good cheer, enough of both for all concerned. The self-invited guests were the members of the Payne, Yarrick, Anderson, LeGrand and Jackson families.

Mr. H. C. Goodell of Loma Park has completed and is putting on the market what is probably the neatest and most compact "Fireless Cooker" yet offered to the public. It is built somewhat on the same principle as the Goodell Refrigerator car, which Mr. Goodell invented and which for many years was the best car of its kind in use and which has not since been excelled as a refrigerator car. Mr. J. C. Beldin is manufacturing the cooker.

Miss Lillian Shropshire was entertained with a birthday party last Saturday evening. It was a jolly affair, the program consisting of music, and games. "Hearts" and "Millonaire" were played. Mary Utter received the penny prize. Olga Grizzle, the dime, Bessie Rose the pin, and Lillian Shropshire the ring. Those present were Mary and Evelyn Utter, Clara Glenn, Iva Hunter, Pearl Goode, Lita McCoy, Mabel Benson, Ida Sipple, Bessie Rose, Mildred Vandervort, of Glendale, and Miss Helen Lamson and Miss Olga Grizzle of the Los Angeles normal school. Ice cream, cake and fruit were served.

St. Mark's Guild met at the Guild Hall last Thursday afternoon at 2:30 and after the regular routine of business was finished, discussions, regarding the summer closing, were freely indulged in by all the members present. It was finally decided to hold one meeting each month during July, August and September, and the second Thursday was the day appointed. Next Thursday, 23rd, the president and secretary will be the hostesses for the afternoon, and they earnestly request that all the ladies who are interested in St. Mark's Guild be present and enjoy a social afternoon.

Last Wednesday Mrs. C. M. Walton of North Glendale was the charming hostess at a most delightful lawn fete in honor of Mrs. Daniel Campbell. It is seldom in California that one sees such a magnificent sweep of lawn as surrounds this beautiful home. About forty ladies enjoyed the hospitality of Mrs. Walton, some of whom indulged in croquet, archery and other outdoor games. Mrs. Walton rendered some very beautiful selections on the mandolin accompanied by the Misses Duncan, Aiken and Grady on the guitar. Large rockers and easy chairs were placed beneath the wide spreading pepper trees where those who preferred to visit and chat, made themselves comfortable. Delicious refreshments, consisting of chicken salad, ice cream, cake, etc., were served within a lovely rose bowery and during the drinking of punch a very unique toast was given by the hostess to the guest of honor, followed by the singing of "The Wearing of the Green." The guests were then shown into the handsome residence which has lately been remodeled, where after exclamations of admiration the good-bys were said, all agreeing the afternoon most happily spent.

EXTENSION OF ELECTRIC ROAD.
Four teams are engaged in grading for the track of the electric railroad, on Glendale avenue, and men are at work putting in the poles up to the park. Not much grading has been done as yet, but the grade is comparatively easy, the ground is all cleared and the work can be pushed rapidly. It is doubtful, however, whether cars will be running by July 4th, as was contemplated.

P. E. O. SOCIAL AFFAIR.
Chapter L. P. E. O., entertained Chapter U of Burbank at a one o'clock luncheon Wednesday of last week at the beautiful home of Mrs. J. G. Hunchberger. The house was artistically decorated with pink sweet peas and asparagus plumosis. The luncheon was in courses, covers laid for 28 members. During the afternoon greetings were exchanged between members of the two chapters. Mrs. Hunchberger gave a delightful reading, and Miss Ruth A. Byram sang two solos. Progressive games served to complete the program of an exceptionally enjoyable afternoon.

CELEBRATE.
As Glendale has decided to celebrate the 4th of July in a "safe and sane" manner, there should be no time lost in preparing to celebrate. The date is two weeks from Monday next. Some weeks ago there was a committee appointed to arrange for a celebration of the day by a picnic at Verdugo Park with the usual features appropriate to the day and occasion. By that date it is expected that the electric road will be in running operation to the park and there could be no more favorable time or occasion for a double celebration, the one of a supremely important national event and the other on the completion of a work of great local interest and importance. We hope to be able to announce in our next issue that all arrangements have been completed and if so it will then be for our people to make all their plans for the day so as to let nothing interfere with their participation in the celebration.

KEEPING IN TOUCH WITH HOME

IT IS WONDERFUL HOW MUCH SATISFACTION CAN BE OBTAINED FROM A TALK OVER THE BELL TELEPHONE

A letter carries words, but the Bell Service has been brought up to such a point of perfection that the modulations of the voice are clearly heard.

The cheery tones show that the talker is well and in good spirits. The call may come from a suburban village or a distant city, but within the limits of the carrying power of the voice the Bell Service carries the tone as well. You get a personal interview with a friend hundreds of miles away.
